N. B. DOWN'S
Vegetable Balsamic Elixir,
The Great Northern Remedy for Consumption!
ALSO the most effectual remedy in the world for *Colds Coughs Whooping Cough Croup or Quincy Asthma, Pain in the Side or Stomach,* and all diseases of the LUNGS AND LIVER
This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS.
Its effect upon the patient is most marked and differs from that of most medicines recommended for the same complaints in the following particulars
1st—It never irritates the organs it should soothe—never dries up the cough leaving the cause untouched—but first *loosens the cough,* ... *expectoration or spitting* then removes the cause, *eradicating it completely* from the system, when as a matter of course, the *cough ceases,* and health is well
2d—It never produces costiveness in the course of ... patient—on the contrary, it has a laxative effect and is a moderate cathartic. We defy the world to produce a case of costiveness so ... but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it and produce a healthy action of the bowels
3d—It does not produce a *dryness of the skin,* but is a powerful promoter of *sensible and insensible perspiration,* thus expelling by the pores of the skin those nauseous fluids and impurities of the blood, the retention of which in the system is the *precursor of DISEASE SICKNESS AND DEATH*
We ... that DOWNS ELIXIR is a specific for all the ills that flesh is heir to, but we ... say and can confirm by incontestable evidence that for
CONSUMPTION,
And all all diseases of the *lungs, the liver and the pulmonary organs* it is *unrivalled*—unequalled— HUNDREDS have been snatched from an early GRAVE and hundreds who delayed a *long its use,* have found in the advanced stage of the disease that RELIEF FROM SUFFERING which they had vainly sought from every other source
This INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz. and 4½ oz. bottles at 25 cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, diluted* pint bottle preparations of the day
We have received *hundreds of certificates* of wonderful cures from every part of the country, many of which have been published *and may be had ... of any of our agents*
Sold wholesale and retail by CURTIS & SMITH General Agents ST ALBANS, VT, to whom all orders for ... the medicine should be addressed (stating the best mode of sending it)—also by agents in ... all the villages and towns in the country

McKENNEY'S
COSSACK SALVE!!
An Invaluable Remedy
FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs Swelling of the Tonsils or Sore Throat The ... Eruptions of the Skin, and all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains Stiff Neck, Chilblains or Chapped hands Sore or Inflamed Breast, Weakness or Pains in the Stomach Piles, Corns, Warts and Common Sores and Cuts and Bruises of all kinds
In bringing this article before the Public we are aware that we labor under no small disadvantage amidst the multitude of All-Healing Ointments and Panaceas that are now advertised as the "*most effectual*" and *certain cures* for all diseases ... to which man or animals are subject
A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each box—a reference to which is invited before purchasing
We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all healing properties
To say indeed, that we do not expect to realize ... remuneration for our services would be alike useless and untrue But we flatter ourselves that ... forsooth, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent
As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press* or the "bought certificates" of individuals, and shall make use of them only so far as they have been or hereafter may be entirely *voluntary* or *unsolicited*
The Salve is now before the Public!
They and they alone will decide upon its real virtue and medicinal properties ... to say less were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates—
The subscriber was afflicted with a Fever Sore ... his leg for about ... years ... and in the winter of 1815 it commenced swelling, from the ankle to the knee After ... remedies ... ceased I applied some Salve manufactured of Mr A. McKenney and continued its application until I had used six bottles which entirely cured me and I have had no return of the disease since I would also say that I know the above Salve to be a cure for CORNS, one of my family having used it for this purpose with complete success
DANIEL SEAVEY
Dexter (Maine) May 1846

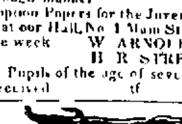

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year and having tried various means to effect a cure without success which cost me about forty dollars ... eight 1 oz of ... BANGOR June 5 1846
Mr McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed to my great satisfaction that it was an invaluable article I also made application of it in cases of Cuts Sprains and bruises upon my cattle and found it equally beneficial It can truly be called the All Healing Salve

☞ In the London Daily News of June 13th, received by the last steamer, we have read at length the debate the previous evening in the House of Commons, upon Mr Cobden s proposition for arbitration in the disputes of England with foreign nations Mr Cobden opened the debate by an able speech, wherein he set forth at length what seemed to him the incalculable advantage of this mode of dealing, over the policy at present observed He concluded by moving

"That an humble address be presented to Her Majesty, praying that she will be graciously pleased to direct her principal Secretary of State for Foreign Affairs to enter into communication with foreign powers, inviting them to concur in treaties binding the respective parties, in the event of any future misunderstanding which cannot be arranged by amicable negotiation, to refer the matter in dispute to the decision of arbitrators'

In the course of his remarks, he gave (amid cries of "hear, and laughs from the protectionist benches) some details of the immense preparations for war always kept up by England, and some calculations of the enormous expenditure which they involved He instanced that 170,000 barrels of gunpowder were kept in store, and that 65,000,000 of ball cartridges were made up ready for use The surplus cannon, besides the armaments afloat, and those in garrison and batteries, reached the number of 50,000 pieces The general tone of his speech may be represented as an able and skillful combination of the arguments put forward by the peace societies, and it was evident from the report of the debate that he was listened to with marked attention While pressing his views upon the subject, Mr Cobden took occasion to put the inquiry —

"Will any one for a moment tell me that the disputes about the boundary between Maine and New Brunswick, and between our territory and that of Oregon, might not have been settled by arbitration? (Hear, hear) I prefer the appointment of commissioners to that of crowned heads, because I would have men who are most competent to judge of the subject in dispute — For instance, this was a geographical question why should not the two ablest geographers of this country have met those of the United States assuming them otherwise qualified by moral character and general attainments, and have been authorised to call in an umpire, if necessary? (Hear, hear)

The example quoted by the member was a most unfortunate instance of the advantages of arbitration Few of our people here at least will be very favorably affected to this plan of adjusting national disputes by a reference to the proceedings of the King of the Netherlands in the matter of our North Eastern Boundary As might be expected, when the able, wary and adroit Secretary for Foreign Affairs (Viscount Palmerston) submitted his views on the motion, he did not fail to notice the point started by the great free trade advocate We subjoin a portion of the Secretary s speech, showing the skilful manner in which he answers the query we have extracted above —

"There was certainly a case in which this country had submitted a national question to the arbitration of a third party, but the result had not been particularly favorable to the views of his hon friend, Mr Cobden Under the treaty of Ghent, the dispute as to the boundaries of Maine and New Brunswick was referred, after infinite preliminary negotiations and contest, to the King of the Netherlands, who, after due consideration, gave his award—to what purpose? Why, the United States, not finding the award suit their notions as to the laws of reference, refused to accept it, and the matter was placed in a worse condition than before, so much so, indeed, that the only thing which prevented the arbitration from bringing about a war between the two countries was the intense desire of both England and the United States to avoid a recourse to arms (Hear, hear) His hon friend wisely steered clear of that and proposed that a commissioner should be appointed What he understood to be the proposition of his hon friend—and if he was in error he was open to correction—was, that a treaty should be entered into between the several nations by which they engaged, in the event of any difference taking place between them, that each government should appoint commissioners of its own to discuss the subject in dispute, and then each should join in appointing a third party, who should be a man of learning or science and by whose arbitration the question in dispute should be settled If, as he (Lord Palmerston) thought was the case, it was objectionable to commit the interests of a great nation to the decision of a rival power, his objection to submitting such questions to arbitration was vastly increased when it was proposed to substitute for a recognized government some private and irresponsible individual as the arbiter, as the pursuit of private individuals did not usually qualify them for such a task There was a case exactly in point, which would show how unfit private men were to arbitrate upon political questions, however learned or scientific they might be It was that of the boundary question between England and the United States That was a case wherein the ascertainment of the longitude was a matter of necessity, at the same time it was attended with some difficulty The settlement of the latitude was a matter of easy accomplishment. By the treaty of Ghent it was provided that commissioners should be appointed to trace the boundary line between the territories of Great Britain and the United States, and his hon. friend (Mr Cobden) would perhaps say this was a very easy matter to accomplish, and that all they had to do was to send for two members of the Geographical Society and to set them to perform the task Now a part of the boundary line lay parallel with the line of latitude, and that was not, therefore a difficult matter to set out The precaution was taken of choosing two learned men, both of whom were expert astronomers, and after various experiments and observations, the result arrived at was that they could not agree, and that there was not the least chance of their ever agreeing on the point, for there was a fundamental difference between them, as wide apart as the centres of the sun and the earth One of them asserted that the measurement ought to be calculated from the centre of the earth, the other averred that the centre of the sun was the starting point, and thus, so far from being able to settle a problem which might be solved by any man who had capacity enough to set up a village sun dial, these two learned individuals left the question with a greater difference existing than when it was first submitted to them — In his opinion, neither Humboldt, nor Tiark, nor the other gentleman whose name he had forgotten were fit arbitrators in such questions as that of which he was speaking "

We fancy that the nations will as yet adhere to the present mode of negotiating disputes,—each having its competent and trusted envoys engaged in looking after its own interests on a given issue, and, having always before it the chances of a resort to the trial of arms We know of no arbiters scientific crowned, or otherwise in this wide world, to whom our people would have submitted either of the questions recently in agitation between them and Great Britain They preferred to trust them to the ordinary channels of negotiation, and in both cases though in each we obtained somewhat less than our claims, the nation was satisfied with the result The final settlement of the North Eastern Boundry question was little, if any more favorable to our country than the line awarded by the King of the Netherlands At his decision we were indignant We were satisfied with the result arrived at by Mr Webster on our part, and Lord Ashburton on the part of Great Britain

We never knew parties in a suit in the courts of law to refer a question to the adjudication of referees, but what one or both parties were dissatisfied and indignant at their award

Pure Cold Water.

The hot weather lately, suggests quite forcibly, the comfort and advantages to be derived from pure cold water It is difficult for strangers, particularly, to obtain this, about the market and the business streets, and hence they are compelled to drink, much to their disadvantage, the manufactured drinks of the shops from the different lemonade, down, through the whole beer family to dashes of ardent spirit of various shades and poisonous compounds

In this connection we would state a fact, not generally known, that there are excellent springs of pure water, under and in the rear of Stetson s Blocks on East Market Square and State street Mr Stetson contemplates we learn, establishing a free fountain, in front of the granite block for the use of persons This could be done at a small expense and would be a great public benefit Another free gushing jet of pure water from a Penstock in front of the Market could be secured during the warm weather and shut off during the winter, for the small sum of fifty or sixty dollars Cannot that sum be raised for so desirable an object?

Robbery and Arrest.

On the night of the 11th inst the store of Mr Nathaniel Swett in Brewer was broken open and robbed of about forty dollars worth of goods Constable Walker of this city was informed of the fact and set his secret searching telegraph in operation and in a few hours he detected the offender, in the person of a young man 18 years of age, and found the goods in his chest on board a schooner in the harbor, and before noon the day after the robbery, the Police Court had attended to the examination of the prisoner and ordered his appearance at the District Court and for want of bail he was committed to jail Constable Walker understands the statistics of roguery so well that we must employ him to keep our readers informed upon the subject

☞ The recent high range of the mercury has brought out a few facts in the experience of one of our citizens, Mr Hiram Jones, who states that for seven years, while he was employed in the Navy, that the mercury in the government thermometre at Portsmouth, never ranged above one hundred and ten degrees in the sun Mr Jones took the place of his brother who was drafted into the service during the last war and remained ninety days but never received from the government his pay for clothing He has performed much other service for the government for which no compensation has been received and many of his friends think that some compensation should be made to him now in his season of age and infirmity

Lectures by a man totally blind

Mr B B Bowen, a man totally blind, but well educated, of an active mind and the author of a work of much merit, will deliver a lecture on the influences of Christianity upon the condition of the Blind, at the Universalist Church on to morrow afternoon, and at Market Hall on to morrow evening

Our people cannot fail to be interested in the subject of the lecture, aside from all curiosity or interest regarding the lecturer himself, and that cannot well be small We trust there will be a good attendance, and that every one will have a trifle of change in his pocket to increase the small gains of Mr Bowen and enable him to pay his expenses, and to provide bread for his wife and his little ones now at their home in a distant State

Cleanliness.

A correspondent to day, calls attention to the subject of cleansing the city It is an important subject Our people are altogether too courageous or too indifferent to the risk of disease arising from filthiness In our recent journey we found the people in all the cities and towns we visited actively engaged in cleansing their premises In the city of Lowell, particularly, efforts were making to remove every particle of filth in all quarters, to cleanse the cellar of every stable, and allow no heaps of manure or other offensive matter to remain in the city It is thought proper by most people elsewhere, to provide for the protection of cleanliness. In Bangor, however, but little thought seems to be given the subject Is it not time to move vigorously in the matter?

A company is now forming in the City of Mexico, composed principally of Americans, merchants, and others of enterprise, to transport California passengers from New York and New Orleans, through Vera Cruz and Acapulco to San Francisco in 50 days The stock required is estimated at $300,000, and is nearly all taken It is supposed that passengers with their baggage can be carried for $300

The Cholera.

To the Editor of the Whig and Courier —

The following facts touching the mysterious march of the cholera, may interest some of your readers This relentless destroyer is sweeping off thousands from our cities, and evidently making the tour of our world. Its way is incomprehensible, awful! I have this moment returned from a scene, which I pray God I may never witness again! The mother has just breathed her last, after an illness of ten hours only The daughter, so recently in the bloom of her youth, attacked simultaneously with the mother, is just sinking into the shadows of death that in an hour more must hide her forever from our sight

A fact here worthy of notice is, that in neither of these cases had there been Diarrhœ, or any premonitory symptoms The daughter had eaten blueberries, but the cautious mother had taken nothing which seemed likely to excite morbid action, and so it is, though many that have Diarrhœ, are finally attacked with the Cholera Asphixia, yet many sicken and die with this plague, with no tangible, or sensible premonitory symptoms After the closest investigation, and conversation with the most able physicians here, I find it impossible to ascertain, why many of our most filthy districts are as free from this plague as others that are perfectly cleanly? or why multitudes of the temperate and prudent fall with the careless and indulgent? Why two are attacked in the same family, at the same moment, who are not amenable to like imprudences? I am half inclined to the opinion that *every case of the Cholera Asphixia is fatal*, and that the convalescent, or those who are said to recover from this awful malady, are not indeed assailed by it, but have cholera morbus, or accute diarrhœ

By the way it is evidently on the increase in this city, the report, to the contrary notwithstanding Ten cases near my rooms have come under my notice to day

Gentlemen, with paternal regard,
I am yours &c,
J W HOLMAN
Philadelphia, July 8th

Cleanliness a Protection against Disease.

To the Editor of the Whig and Courier

Some of your correspondents as well as yourself, have attempted to call the attention of the City Authorities to the importance of giving some attention to the condition of our city in regard to cleanliness, but I believe up to this time, without the slightest success It is believed that the city was never more filthy than at the present moment I would most respectfully and earnestly ask the Mayor and other officers whose duty it is to attend to such matters, to examine the tenements and premises on the Easterly side of Exchange Street, between Hancock and Washington Streets, and many other localities, and I am sure they cannot refrain from taking effectual measures for producing a more wholesome state of things It does appear to me that we are not doing what we can, and ought to do, to preserve the health of the place, but on the contrary are by our gross negligence, inviting that terrible scourge which is now afflicting so large a portion of our country

Our neighbors at Portland, have of late, taken hold of the work of purifying their city with great energy and success Let us follow their example
C

☞ The steamer Penobscot which has been running between this city and Boston has been sold to run between New York and Philadelphia Her place is to be supplied by the steamer Kennebec, Capt A M Sanford Capt Seymore with his mate and chief Engineer will continue in the Penobscot on her new route, while Mr Bryant the accomplished Clerk, the Steward and others employed will be transferred to the Kennebec, much to the acceptance, certainly of our travelling people

Capt Seymore will be a favorite wherever he may be employed He is a gentleman and a seaman every inch

Sudden Death.

A man by the name of Michael Kinney died very suddenly in this city yesterday noon He belongs in Miramichi, where he has a wife and children He came into this city yesterday from Orono, and when much heated drank freely of cold water at a spring He soon began to shiver, and at length fell He was immediately taken to a house and medical aid procured, but he lived only a short time

Such weather as we are now having, does not admit of great excesses of any kind, especially in eating or drinking

Closing up.

Mr. Cassidy brings his exhibition of the beautiful Panoramas of the Mississippi and Ohio Rivers to a final close on this evening There will be an exhibition at three o'clock this afternoon, and also this evening This is the last opportunity that will be given our citizens to witness those life like panoramas

☞ The heat of the sun was so great on Thursday last as to scorch the foliage of many of the squash vines and other tender vegetation This is quite unusual for Down East, and Mr Beecroft the well known gardener says, he never knew the like before

☞ The Democrats of Windham county, Vt, of the 'Old Line,' had a convention at Newfane on the 14th, as we learn from the Brattleboro' Eagle, and nominated a Senatorial ticket Some of their resolutions were in no wise flattering towards the doughs of the union convention

The number of immigrants who arrived at Boston from April 1st to July first was 14,334 in 407 vessels About 10,000 of these were from Ireland and England, and the remainder from the British Provinces

☞ There is great need of rain here The streams are low and many mills hung up The crops begin to need a little moisture, while a large amount of rain is required to bring down the logs

☞ One of our neighbors has left at our office fine specimens of ripe Gooseberries and White Currants. They are very clean, large and handsome The gooseberries are known as the Sulphur

A careless compositor lately dissolved the Union, by transposing two letters, whereby the United States become the *Untied States*

We cut the following from the Bellows Falls Vermont Gazette:—

WISTAR'S BALSAM.—Notwithstanding our aversion to puffing, as many do, every thing that comes along in the shape of Patent Medicines, and the fact that we scarcely ever take medicines of any kind, yet we feel that we should be doing injustice to the community by withholding longer the favorable opinion we have of Wistar's Balsam, in cases of colds and pulmonary complaints. Having witnessed its good effects in several instances, we believe it to be an excellent article.

[From the Watch Tower, Newburyport, Mass.]
Any thing that will cure colds, which are so very prevalent at the present time, must be considered invaluable. The only medicine (of which we have any knowledge,) which is sure to remove lung complaints, is Wistar's Balsam, of which Seth Fowle, of Boston is agent We have repeatedly seen the good effects of this Balsam, and are satisfied that it is no humbug

[From the Boston Daily Bee]
From some little experience of our own, we testify the superiority of the Balsam of Wild Cherry, and we have been repeatedly assured by quite a number of our personal friends who have used it with success in pulmonary complaints, the phthisic asthma, night sweats etc. that they regard it as one of the most beneficent remedial agents of the time

[From the Batavia (N. York) Spirit of the Times]
This is one of the very few patent medicines of the day which we can commend with confidence, to all who are afflicted with Coughs, Colds, or Consumption, or who are predisposed to the latter complaint. It has been used with considerable advantage by many families in town and in a few stubborn cases has produced highly beneficial effects.

[OPPOSITE THE HATCH HOUSE,]

BANGOR.

BEGS leave to return thanks to his numerous friends and patrons of very liberal patronage heretofore bestowed, and hopes to merit and receive a continuance of the same.

For the information of those who may not be acquainted with him he would say that he practices medicine upon

ECLECTIC PRINCIPLES,

and makes use of no remedies but what act in perfect harmony with the sanitary laws of life, that his object in exhibiting any remedy, is to *sustain, not destroy* the vital energies.

Although he chooses to confine himself principally to the treatment of

Fevers and other Acute Diseases,

the former, unparalleled success in curing *old chronic cases* of every description cases which resisted the ordinary treatment of every system, induces him to endeavor to do all in his power to alleviate suffering humanity.

The result of his extraordinary success is in part owing to his

ABILITY TO DETECT

the actual *seat* of the malady. For there is not one physician in ten at the present day, that REALLY understands the nature of their patient's disease. And how can they expect to cure them, if persons (?) they do comprehend it in some measure. They too often administer such deleterious and life-destroying remedies that their patients are never able to recover from the ill effects and much less the disease. He would not boast of his superior skill, nor pretend to cure diseases where organic life has become extinct, yet upwards of [...] who were one year ago afflicted with that [...], too often *fatal* disease.

Consumption,

have been restored to health, and are now living witnesses to the salutary effect of his medicine, who were at this time pronounced *incurable* by Physicians of the "*Old School*" and among them were some of the most scientific in New England. Does not a Physician's success in practice go further to convince the public of his real skill than all the advertisements or array of diplomas in Christendom?

He would say to the afflicted of every description, that such as may choose to put themselves under his care, and follow his directions, if a cure is not effected he will pay the reasonable bill of any Physician that will effect a permanent cure, and their bill does not exceed one hundred dollars. *What can be fairer? Is this boasting? Is it quackery? If so is it not with a witness?*

Those wishing examination and advice may obtain it without being flattered in relation to the nature of their diseases, or with regard to its curability, as he will undertake no cases unless he is satisfied that he can materially relieve or entirely cure them, wishing no man's money without rendering him an equivalent.

To this end he challenges one and all of his numerous patients to designate a single instance where he has not performed to the letter all that he promised at the outset!

Fees for examination and advice, $1

Dr W wishes the public to understand that he is not a travelling Doctor as those only are *obliged* to who practice Quackery and humbuggery, (mark it) a truly skillful Physician will always find the most business where he is best known.

A certificate of recommendation, may be seen at his office (relative to himself and medicines) signed by upwards of *fifty* individuals of the first respectability, in the town where he resided and practiced medicine previous to his locating in Bangor. Also, sufficient city reference given if required, to satisfy the most incredulous.

A VERY accurate disinfecting CHLORIDE for purifying the atmosphere is now manufactured fresh and good in this city, by the subscriber

This highly effective preparation discovered by a celebrated French chemist, is one of the best preventives against Cholera and all other diseases arising from an impure state of the atmosphere — Its process purifies the air and renders all offensive matter entirely inodorous and it is therefore a very desirable article to throw about sinks, drains, privies, and all places where the atmosphere is tainted with unwholesome gases and offensive effluvia

This article has received the high commendations and approval of Dr Geo W Holden of this city

NEW AND Important Discovery

GRAY HAIR can be restored to its original color whether Auburn Brown or Black Sandy, Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O. M. Ballard's

Permanent Liquid Hair Dye,

Of one preparation which is entirely different from all other preparations of Hair Dye now before the public. Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out

In short, from its peculiar delicacy, softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair as it will make any shade, from a white to a jet black It is now used to an unaccountable extent, by persons who have prematurely turned gray and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging sickening, or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body It is one of the very best *SPRING AND SUMMER MEDICINES* ever known it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood* a power possessed by no other medicine And in this lies the grand secret of its wonderful success — It has performed within the last five years more than 100,000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than 5,000 children during the two past seasons

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy, This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq, one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism considerable of the time I could not eat, sleep or walk I had the most distressing pains and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS

FITS FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits of course never recommended it and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits, we tried almost every thing for her, but without success at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health we would give her some of your Sarsaparilla and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully,

JOHN BUTLER, Jr.

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhoea or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nerveless ness of the female frame, which is the great cause of Barrenness It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, *The turn of life* should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child, prevents pain and disease increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness, Cramps Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the human face divine, as we see it in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe This beauty is the offspring of *nature*—not of *powder or soap* If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it are more than satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a *great remedy for females*, &c, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not A number of these Mixtures, Pills &c, are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores, have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully

Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

ALSO, the most effectual remedy in the world, for *Colds Coughs Whooping Cough Croup or Quinsy, Asthma, Pain in the Side or Stomach*, and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked and differs from that of most medicines recommended for the same complaints, in the following particulars

1st—It never irritates the organs it should soothe —never dries up the cough, leaving the cause untouched—but first *loosens the cough, increases the expectoration or spitting* then removes the cause *eradicating it completely* from the system, when as a matter of course, the *cough ceases*, and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a lax tive effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it, and produce a healthy action of the bowels

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration*, thus expelling by the pores of the skin, those nauseous fluids and impurities of the blood, the retention of which in the system is the *sure precursor of* DISEASE SICKNESS AND DEATH

We do not pretend that DOWNS ELIXIR is a specific for all the ills that flesh is heir to, but we do say, and can confirm by incontestable evidence, that for

CONSUMPTION,

And all all diseases of the *lungs, the liver and the pulmonary organs* it is *unrivalled—unequalled* — its NICKELS have been snatched from an UNTIMELY GRAVE, and hundreds who *delayed too long its use*, have found in the advanced state of their disease that RELIEF FROM SUFFERING which they had vainly sought from every other source

This INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz and 4½ oz bottles at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, adulterated* pint bottle preparations of the day

We have received *hundreds of certificates* of its wonderful cures, from every part of the country, many of which have been published *and may be had gratis of any of our agents*

Sold wholesale and retail by CURTIS & SMITH General Agents, ST ALBANS, VT, to whom all orders for supplies of the medicine should be addressed, (stating the best mode of sending it)—also sold by agents in nearly all the villages and towns in the country

TEMPLE, N H Jan. 17, 1849

"Dr. S Jewett.

Dear Sir —I have examined your *Pulmonary Elixir* and am well satisfied that it merits the *full confidence* of the community as being what it purports to be, an efficient and safe remedy for *all* the diseases to which the respiratory organs are subject It may be used with much more *safety* than almost any other article offered for this purpose, inasmuch as the danger of impaired action of those organs, the frequent and legitimate result of most other remedies of the class, by reason of *their opiate character, is, by this, entirely obviated*

The physician who should meet with it in families, would find it a *ready assistant* by which his own labor in the depreciation of medicine would be obviated, and his efforts for relief essentially aided

Dr. Stephen Jewett:

Sir —Having used your *Health Restoring Bitters* and *Pulmonary Elixir*, to a considerable extent, in my family, for the past winter, I would beg leave to bear testimony as to the efficacy of those medicines, the former for *restoring loss of appetite, for headache, languor*, and *general debility*, the latter for *coughs* and *sore throat*— In fact, I think *no family should be without those restoratives always at hand* thereby frequently *superseding* the necessity of calling in a physician

DR. CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, —AND— MAGNETIC FLUID,

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States to be the *most valuable medicinal discovery of the Age*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body giving tone to the various organs, and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which arise from one simple cause namely

A Derangement of the Nervous System.

In NERVOUS COMPLAINTS Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system, while under the strengthening, life giving vitalizing influence of Galvanism as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health strength elasticity and vigor

The great peculiarity and excellence of

Dr Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging and physicking the patient till exhausted Nature sinks hopeless under the infliction [illegible]

60,000 Persons

[illegible] within the last [illegible] years have been subject to Nervous Complaints [illegible]

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization DYSPEPSIA, or any other Chronic or Nervous Disorder In ordinary cases stimulants are taken which by their action on the nerves and muscles of the stomach afford temporary relief, but which leave the patient in a lower state and with injured faculties after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer, even in the worst symptoms of an attack and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative and thence back again to the positive thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

Certificates and Testimonials

From the most Respectable Sources,

Could be given, sufficient to fill every column in this paper We make a few selections The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter narrates one of the most remarkable cures in the annals of Medical Science is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and exalted reputation

SIDNEY New Jersey, July 12 1848

DR A H CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia Every year my symptoms became worse nor could I obtain permanent relief from any course of medical treatment whatever My physicians were skillful and experienced, but here their power was limited About *fourteen* years since in consequence of frequent exposure to the weather in the discharge of my pastoral duties I became subject to a severe Chronic Rheumatism, which *for years after* year, caused me indescribable anguish In the severer paroxysms, the skill of my physicians at times afforded me great relief but this relief was only temporary Farther in the winter of 1845 and '46 in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis which soon became so severe as to continue on and to entirely stop my pastoral labors *My nervous system* was now *thoroughly prostrated* and as my bronchitis became worse so also did my dyspepsia and Rheumatism of fear that these afflictions were connected with each other through the medium of the Nervous System My sufferings were almost beyond [illegible] pastoral [illegible] from the discharge of those duties and [illegible] pain [illegible] labor in which my soul has ever found the highest of her joys

In consulting, I at once decided to carry on [illegible] that the Nervous System must be reached before any benefit could be [illegible] of my obtaining relief In this [illegible] list of my aliments. To the whole [illegible] then seemed to be no remedial agent which [illegible] my Nervous System into [illegible] I tried for this purpose [illegible] At last I was led by my friends to examine your inventions and though with no very sanguine hopes of their efficacy I [illegible] to try the effect of the application of the GALVANIC BELT AND NECKLACE with the MAGNETIC FLUID This was in June, 1848 TO MY GREAT ASTONISHMENT IN TWO DAYS MY DYSPEPSIA HAD GONE, IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME If time permitted I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract My Dyspepsia has *never returned*, the Rheumatism once in a while visits me, but not severely and is easily arrested, and is manifestly being driven from its hold upon my system and my Bronchial affection is *entirely cured* Such is the wonderful and happy results of the experiment

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections. They have tried them, WITH HAPPY RESULTS I BELIEVE IN EVERY CASE

I am, dear sir, very respectfully yours

CAUTION EXTRA.

A man by the name of *CLAPP* has engaged with a young man of the name of S. P Townsend and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE Original, etc. This Townsend is no doctor and never was, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr.'s likeness, his family coat of arms, and his signature across the coat of arms

OLD DR. JACOB TOWNSEND

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla

Old Dr Townsend is now about 70 years of age, and has long been known as the *AUTHOR and DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA*" Being poor, he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless as those persons who had been healed of sore diseases and saved from death proclaimed its excellence and wonderful

HEALING POWER

Knowing, *many years ago* that he had, by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S. P. Townsend's it improves with age and never changes but for the better because it is prepared on *scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root, it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat are the very *essential medical properties* of the root which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from anything else they can then strain this insipid or vapid liquid sweeten with sour molasses, and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed everything capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form, and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases

Hence the reason why we hear commendations on every side in its favor by men women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA and LIVER COMPLAINT, and in RHEUMATISM SCROFULA PILES COSTIVENESS ALL CUTANEOUS ERUPTIONS PIMPLES BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart cold feet and hands cold chills and hot flashes over the body It has not had its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs, throat, and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus or Whites Falling of the Womb Obstructed Suppressed* or *Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Kidney Disease.*

By removing obstructions and regulating the general system it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions* &c

It cleanses the blood excites the Liver to healthy action tones the stomach and gives good digestion relieves the bowels of torpor and constipation allays inflammation purifies the skin equalizes the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this

The medicine you pre-eminently need?

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS.

while the other DOES, *souring fermenting* and blowing the *bottles* containing it into fragments the sour acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system? *What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischief it produces? flatulence, heartburn palpitation of the heart, liver complaint diarrhoea, dysentery colic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head Salt Rheum, Erysipelas White Swellings, Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours and thus spoils all the fluids of the body more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood of deranged circulations, and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell and infinitely worse to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's *article*! and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S. P. Townsend's FERMENTING COMPOUND

We wish it understood because it is the absolute truth that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart* and infinitely *dissimilar*, that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor, and never was is no chemist no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it and which are incapable of changes which might render them the *AGENTS* of Disease instead of health

But what else should be expected from one who knows nothing comparatively of medicine or disease It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience its

Transcendent Power to Heal
